

Identify the following terms by drawing circles around each item and drawing a line from the item to the term.

Option Explicit

```
Private Sub cmdCommand_Click()  
    Call MoveTo(Val(txtNum1.Text), Val(txtNum2.Text))  
    AnnoyUser("hello", 5)  
End Sub  
  
Private Sub MoveTo(intX As Integer, intY As Integer)  
    cmdCommand.Left = intX  
    cmdCommand.Top = intY  
End Sub  
  
Private Sub AnnoyUser(strWord As String, intNum As Integer)  
    Dim J As Integer  
  
    For J = 1 To intNum  
        MsgBox strWord  
    Next J  
  
End Sub
```

- | |
|----------------------|
| 1. Call statement |
| 2. general procedure |
| 3. procedure header |
| 4. parameter |
| 5. local variable |
| 6. parameter list |
| 7. event procedure |

In a complete paragraph, fully explain what the program does when cmdCommand is clicked.
