

```
/**
 * A class that serves an an example to
 * several Ch. 1 concepts.
 */
public class Ch1Demo2
{
    public static void main(String[] args)
    {
        System.out.print("hello");
        System.out.println(" world");
        System.out.println("hello wyomissing\n"); // poor indentation but it still works
        System.out.println("hello \"neighbor\"");
        System.out.println("hello \\neighbor\\");
        System.out.print("\n\n\n");
        System.out.println(3);
        System.out.println("3");
        System.out.println(3 + 4);
        System.out.print("3 + 4");
        System.out.print(" = ");
        System.out.println(3 + 4);
        /* This is an old-fashioned C-style
         * comment that is spread out over
         * 3 lines of code */
    }
}
```
