

Java Scavenger Hunt

Name –

Period –

Use Internet search engines and/or Java tutorials linked from our Classwork Calendar to answer the following. Your answers will be graded on the accuracy and completeness of your answers.

1. What is the keyword `final` used for in Java?
2. What Java package contains a collection of classes that allow you to read and write to streams?
3. Give an example of a "wrapper" class in Java.
4. What is an instance field in Java? Should an instance field be declared as `public` or `private`?
5. How is the keyword `static` used in Java?
6. What is the Java virtual machine (JVM)?
