

Test Postmortem Analysis

Answer the following questions on a piece of paper with your name & the today's date at the top.

1. What course are you taking? (e.g. VB, Java or Software Design)
2. For which unit was this test (e.g. Unit 1)?
3. List any questions that you cannot find answers to anywhere in the online lecture notes.
4. List any questions that were not similar to any exercises on assigned worksheets and/or a practice test.
5. List any questions that you missed because you were confused by the wording or format of the question.
6. List any questions that you missed because of a "dumb" mistake & that you probably would have got correct if you took your time & checked your work more carefully.
7. List any questions that you probably missed due to being absent from class.
8. How will this analysis help you prepare differently for the next test?
9. Is there anything else you'd like to tell the instructor about this test?
