Wyo Computer Science   Name -
Blown to Bits Ch. 2 Worksheet

Fully answer all questions **by copying and pasting the questions into a labeled Word document and typing your answers** in paragraph form. Save the Word file with the name **BitsBookCh2JohnDoe** using your name instead of *JohnDoe*. Upload the document as specified by the teacher.

Use references from the book where possible but supplement with outside research where necessary. You will be graded on grammar, completeness, diction, and overall presentation. Your answers must be your own independent work that expresses your personal point of view, reflection, and understanding of the material.

1. What dangers lie in the ubiquitousness of phones with built-in digital cameras?
2. How can metadata allow authorities to catch someone for distributing photographs of a copyrighted Harry Potter book?
3. Give two examples of how RFID's are used in business.
4. What is an EDR and what information does it capture?
5. What do many color printers print on every page that they print?
6. What information was learned from the diagram in Figure 2.3 on p. 33?
7. What three pieces of data can be used to re-identify 87% of the U.S. population even if attempts are made to de-identifty the data?
