Trace the following code segments. Show the trace of values for each variable in the appropriate columns.

1.
```
Dim intSum As Integer = 0
Dim i As Integer = 0

For i = 1 To 10
     intSum = intSum + 1
Next
```
          intSum   i

2.
```
Dim intSum As Integer = 100
Dim i as Integer = 0

For i = 20 To 1 Step -3
     intSum = intSum - i
Next
```
          intSum   i

3.
```
Dim dblTotal As Double = 1
Dim intLimit as Integer = 50
Dim intDeposit As Integer = 0

For intDeposit = 0 To intLimit Step 10
     dblTotal = dblTotal + intDeposit * 0.1
Next
```
     dblTotal   intLimit   intDeposit

4.
```
Dim intNum1 As Integer = 1
Dim intNum2 As Integer = 1
Dim intNew as Integer = 0
Dim i as Integer = 0

For i = 0 To 6
     intNew = intNum1 + intNum2
     intNum1 = intNum2
     intNum2 = intNew
Next
```
     intNum1   intNum2   intNew   i
