

Short Answer - Write code segments to perform the following tasks.

1. Write a statement that places a checkmark next to a menu command named `mnuColor`.
2. Write a `FOR` loop that displays “hello” in a message box exactly 10 times.
3. Write a `FOR` loop that uses a message box to display all of the even integers between and including 2000 and 2020.
4. Write a `FOR` loop that uses a message box to display all of the odd integers from 99 down to and including 9.
5. Write a `FOR` loop that uses an accumulator statement to compute the sum of the integers from 1 to 100.
