Period -

1. Trace the following code segment and fill in the elements of the array intNumbers.

```
Dim intNumbers(10) As Integer
Dim J as Integer

For J = 0 to 4
        intNumbers(J) = 3
Next J

intNumbers(9) = intNumbers(2) + intNumbers(7)
intNumbers(1) = intNumbers(8)
intNumbers(5) = intNumbers(1)
```

intNumbers	0	1	2	3	4	5	6	7	8	9

2. Trace the following code and fill in the elements of intNumbers.

```
Dim intNumbers() As Integer = {12, 15, 11, 10, 43, 29, 76, 21, 33, 99}
intNumbers(3) = 15
intNumbers(2) = 45 - intNumbers(9)
intNumbers(9) = intNumbers(1) * intNumbers(4)
intNumbers(5) += intNumbers(6)
intNumbers(7) = 2 + intNumbers(6) * 2
```

intNumbers	0	1	2	3	4	5	6	7	8	9
