_____/_____/_____ — Date

Paper Flow for Student Project Form

Students	Students in grades 9-12 need to complete this form and return it to their appropriate teacher.
Teachers	Teachers need to grade and sign off on completed projects and then return the entire form to the counseling office. Most projects will be embedded in the curriculum; however, students who choose a stand-alone project may approach teachers to guide them and grade their project.
Counseling Office	The counseling office checks off completed projects for each student and then keeps a running record of each student's status.
