1. Complete the following `If` statement so that it reflects the following instruction.
   If the variable `asparagus` is equal to `"yes"` then display `"You get dessert!"` in a message box

   ```
   If (                              ) Then

   End If
   ```

2. Write an `If` statement that displays `"True"` in a message box if the variable `num` is greater than 5.

3. Write an `If` statement that displays `"True"` in a message box if the variable `num` is not equal to 5.

4. Write an `If` statement that displays `"True"` in a message box if the variable `num` is greater than 5 and `num` is less than or equal to 10.

5. Write an `If` statement that displays `"True"` in a message box if the variable `username` is alphabetically less than the letter `"M"`.

6. Write an `If Else` statement that displays `"You get dessert!"` in a message box if the variable `asparagus` is equal to `"yes"`. The `If Else` statement should display `"You do NOT get dessert!"` in a message box otherwise.

   ```
   If (                              ) Then

   Else

   End If
   ```

7. Write an `If Else` statement that displays `"Welcome to Facebook"` in a message box if the variable `username` is equal to `"Cade"` or `"cade"` and the variable `password` is equal to `"abc123"`. Otherwise, the `If Else` statement should display `"Do not try to hack Facebook"`.
